

## Highest-performance doors for home theaters and offices.

QuietHome Doors deliver superb noise reduction for home theaters and offices. Their high STC ratings – from 44 to 51 for a single door, or over 80 back to back – reduce loud speech to the barely noticeable, or other loud music or noise by a similar amount.

### QuietHome Door Benefits

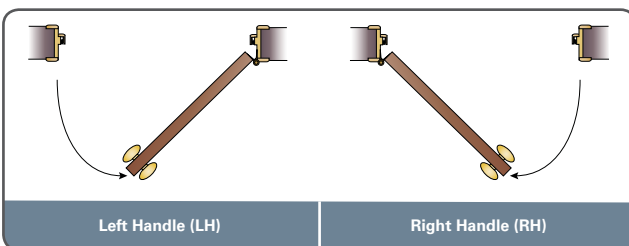

- Superb noise reduction, with STC ratings up to 51, for operable assemblies
- Patent-pending technology, including internally-damped, multi-layer, QuietWood<sup>®</sup> - based construction
- Only THX-certified soundproof door in the world; excellent for home theaters and commercial studios
- Flush design
- Pre-hung
- Available in unfinished Chinese Maple; can stain and finish as desired
- Lower weight than other soundproof doors, for easier installation and use
- Includes high-performance door seals

### QuietHome Door Features

*QuietHome Doors reduce noise through multi-layer construction and proprietary viscoelastic polymers.*
